MC 346 is a universal magnetic contact with change-over (NC/NO) function that can be used in both alarm and access control systems for monitoring e.g. doors and windows against unauthorized opening. Both the contact and the magnet part are in a water proof (IP 67) plastic housing, which enables easy installation into wood without additional accessories. With our extensive range of installation accessories it is easy to install the contact either recessed or as a surface mount.
