Product description:

JB 370 is a junction box which simplifies the installation of the GD 370 glass break detector. The junction box connects GD 370 with IU 370 and/or multiple JB 370. JB 370 is equipped with a built-in resistor for termination of glass break (optional with jumper). It also has tamper protection.

When installing multiple GD 370 in an alarm system JB 370 is used as junction box at each window.
