

# GVT 5000

## Test Unit for Glass Break and Vibration Detectors

### Product :

Tension de l'alimentation	8 x AA, LR 6 battery
Matériau du coffret	ABS Plastic
Température de fonctionnement	-10 to +70°C
Dimensions (L x l x h) mm	167 x 80 x 50

### Product description:

Hand-held test unit for glass break and vibration detectors. Generates two types of test signals, one for GD 300/GD 400 and one for VD 400 detectors. Also contains a 12V output for test of GD 300 and 400 series before mounting.

Easy to use and causes no damage to the test object.
