

3070

E-NR: 5015323

This product has been discontinued and replaced with: 3071.03

Terminal block for installation of tele and access systems.

Anti-tampering protected fuse module for distributing power supply 10 A to 5 sections.

The fuse module 3070 is designed for power distribution.

It contains a dual input input for connection to power supply and five independent secured outputs. The outputs (+) and (-) of each channel are secured with separate fuses.

The normal state of each channel is signaled with green LEDs. Errors detected in each channel (lack of voltage or activated fuse) signaled by common red LED and switching relay.

Label terminal on the board included.

The box is flame-retardant according to UL 94 V-0. The terminal has screw connection with elevator function.

TECHNICAL DETAILS

Supply voltage	8-20 VAC
Current consumption	23 mA @12 VDC, 33 mA @24 VDC
Number of channels	5
Cable dimension - input	0,2 – 2,5 mm2
Cable dimension - output	0,14 – 1,5 mm2
Max. load per channel	30 V / 2 A
Input current max.	10 A
Dimensions (L x W)	116 x 80
Product type	Connection accessories
Environment	Indoor

Accessory type	Fuse board
Connection terminal	Fused
Terminal type	Screw/screw
Product line	Fatum
Product feature	Surface-mounted

ORDER INFORMATION

Model	E-NR	Description
3070.03	5015323	Fuse module 10-30V DC/AC, Screw terminals
