

GD 470-S

This product has been discontinued and replaced with: GD 470-SJ

GD 470-S glass breaker detector with relay output has the same functions as GD 470 which can be connected directly to an input to the control panel. The detector has a spiral cable with modular contact which is connected in the junction box JB 103-4, which means that it can be easily and quickly disconnected from the detector loop at e.g. plastering a window
